Main Features – Action Tracker

▶ Under each project you create an Action Tracker

▶ You have plenty of features to use:
  ◦ **Task** – add here a brief description of the task
  ◦ **Description** – add here more details about the task
  ◦ **Open Date** – date when task was opened
  ◦ **Due Date** – date when task is due
  ◦ **Tags** – choose multiple Tags/Categories for your tasks
  ◦ **Status** – Complete, Issue, On Hold or On Track
  ◦ **Owner** – Choose the Owner of the Task
  ◦ **Owner Email Address** – Auto fill Owner's email address
  ◦ **Notes** – Add notes about the task
  ◦ **Notify** – Add more people that need to be notified about this task
  ◦ **Attachments** – drag and drop any attachments
  ◦ Each Task can have multiple **Sub-Tasks**

Main Features – Notifications

▸ For each Tasks, the Owner of the Task and people added to Notify get email and/or SMS notifications when:
  ◦ Task is saved
  ◦ Task is edited
  ◦ Task is closed
▸ Email and/or SMS notifications are also sent daily to owners of any overdue tasks

Main Features – Reports

▸ Powerful reports are available at your finger tips

- Overdue Tasks
- Tasks On Hold
- Tasks due in the next 7 days
- Tasks due in the Next 14 days

▸ Reports are run across multiple Projects or can be filtered only for your project

▸ An Advanced Search lets you customize the search and retrieve any information you need
