Take Control of Your Maintenance with NS-CMMS

Introducing NS-CMMS, the powerful and user-friendly web-based Computerised Maintenance Management System that empowers businesses to optimise asset performance, streamline maintenance operations, and reduce costs.

Who is NS-CMMS for?

- Facility managers
- Maintenance professionals
- Operations teams
- Businesses of all sizes across various industries

Maximise Efficiency and Minimise Downtime

- **Comprehensive Asset Management:** Track all your assets, from machinery and equipment to buildings and vehicles, in a centralized and organized database.

- **Preventive Maintenance Scheduling:** Schedule and track preventive maintenance tasks to ensure equipment reliability and avoid costly breakdowns.

- **Work Order Management:** Create, assign, and track work orders for corrective and preventive maintenance, with clear communication and reporting.

- **Inventory Control:** Manage spare parts and inventory efficiently, ensuring availability when needed.

- **Compliance Management:** Stay compliant with industry regulations and quality standards like ISO 9001 and 13485.

Benefits of NS-CMMS

- **Reduced Downtime:** Prevent equipment failures and extend equipment lifespan through proactive maintenance.

- **Lower Maintenance Costs:** Minimize unplanned repairs and optimize resource allocation with efficient scheduling and inventory control.

- **Improved Productivity:** Streamline maintenance workflows and empower your team to focus on critical tasks.

- **Enhanced Data-Driven Decision Making:** Gain valuable insights into asset performance and maintenance trends through comprehensive reporting.

- **Increased Transparency and Collaboration:** Improve communication and collaboration across teams with real-time data access.

NS-CMMS: Simple, Scalable, and Secure

Web-based access: Accessible from any device with internet connection, making it easy for your team to stay connected.

User-friendly interface: Intuitive and easy to learn, even for non-technical users.

Scalable solution: Adapts to your growing needs, whether you're a small business or a large enterprise.

Secure data storage: Ensures the safety and integrity of your critical asset and maintenance data.

Unleash the Power of Data-Driven Maintenance with NS-CMMS Reporting

Generate comprehensive reports: Gain insights into key metrics like work order completion rates, PM & Calibration status, scheduled and emergency repairs.

Visualise data with interactive charts and graphs: Easily identify trends and patterns to make informed decisions.

Drill down into specific data points: Analyse specific areas of your maintenance operation for deeper understanding.

Export reports in various formats: Share reports with stakeholders easily for improved transparency and collaboration.

READY TO EXPERIENCE THE POWER OF NS-CMMS
